

SINGLE WAY TAP & PP SINK

**Engineered for Performance.
Built for Laboratories.**

VILVA Single Way Tap and PP Sink are designed for modern laboratories to deliver superior chemical resistance, durability and effortless functionality.

FEATURES

Chemical Resistant

Made from premium materials for excellent corrosion resistance.

Durable & Long Lasting

Robust construction ensures reliable performance in demanding lab conditions.

Single Way Functionality

Provides a steady flow of water for general laboratory applications.

Easy Installation

Designed for quick setup and minimal maintenance.

Hygienic & Smooth Finish

Non-porous surface ensures easy cleaning and prevents contamination.

SINGLE WAY TAP

- Steady & consistent water flow
- Smooth operation for everyday lab use
- Lightweight, durable and chemical resistant
- Suitable for a wide range of laboratory applications

PP SINK

- Made from premium polypropylene
- Excellent chemical & heat resistance
- Deep bowl design to minimize splashes
- Suitable for all laboratory environments

COMPLETE LAB SOLUTIONS

From furniture to instruments – VILVA delivers reliability, quality and innovation.
